Dear John:

On behalf of the Science and Technology Advisory Panel, I want to thank you for finding the time to join us for lunch on 8 December 1982. Your observations regarding under ice operations, technology transfer, and the Trident deterrent force were extremely insightful, interesting, and valued by each member of the Panel. Additionally, we are looking forward to the opportunity to review and comment on your R&D Investment Strategy Report.

Once again, many thanks for sharing your views with us. If the STAP can be of any assistance to you, please do not hesitate to contact me.

Sincerely,

STAT
